

IBM CLOUD SERVICES

- Simply put, cloud computing is the delivery of computing services including servers, storage, databases, networking, software, analytics, and intelligence-over the Internet (“the cloud”) to offer faster innovation, flexible resources, and economies of scale.
- We need to have basic knowledge of the following cloud services:
 - 1.IBM Watson IoT Platform,
 - 2.Node-RED Service,
 - 3.Cloudant DB,
 - 4.TTS Service.

Application modernization

- Unlock your core applications and harness cloud-native development to become a nimble market competitor.

Automation:

- Reduce process blockers, improve IT operations, connect your apps and data, and tune network performance.

Backup and disaster recovery:

- Create a business continuity plan that includes cloud backup and disaster recovery for your critical IT systems.

Confidential computing:

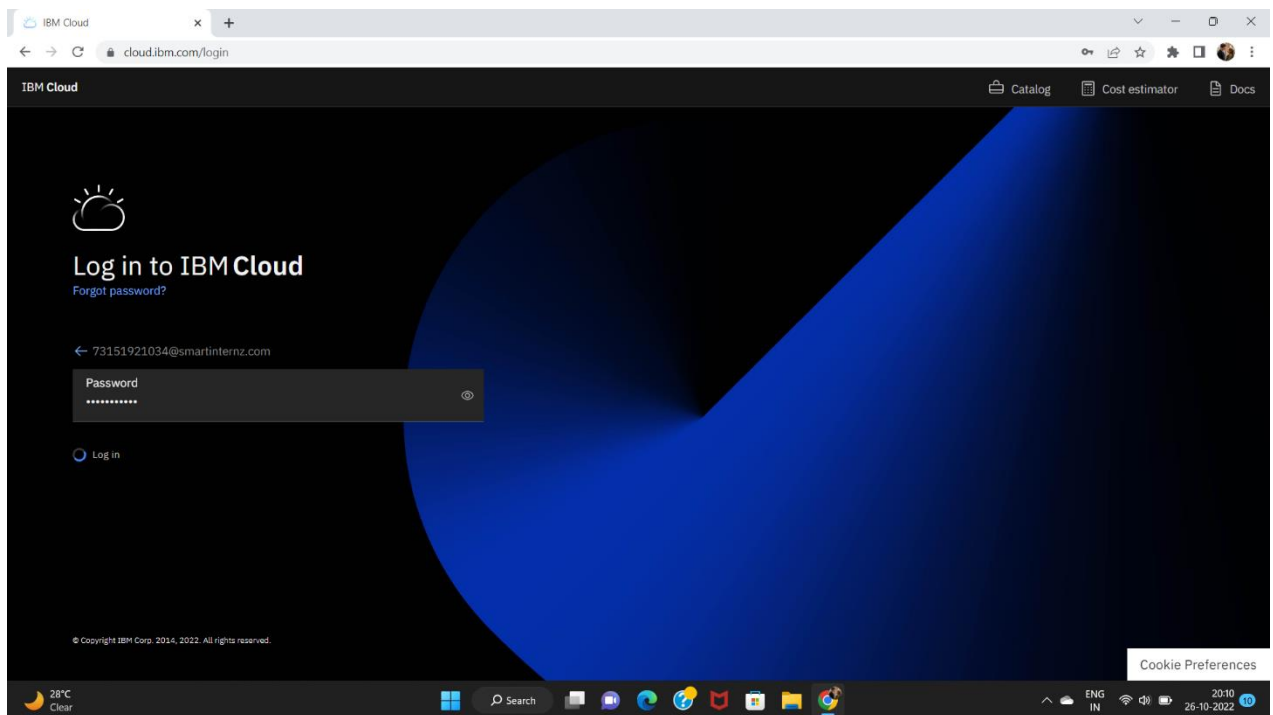

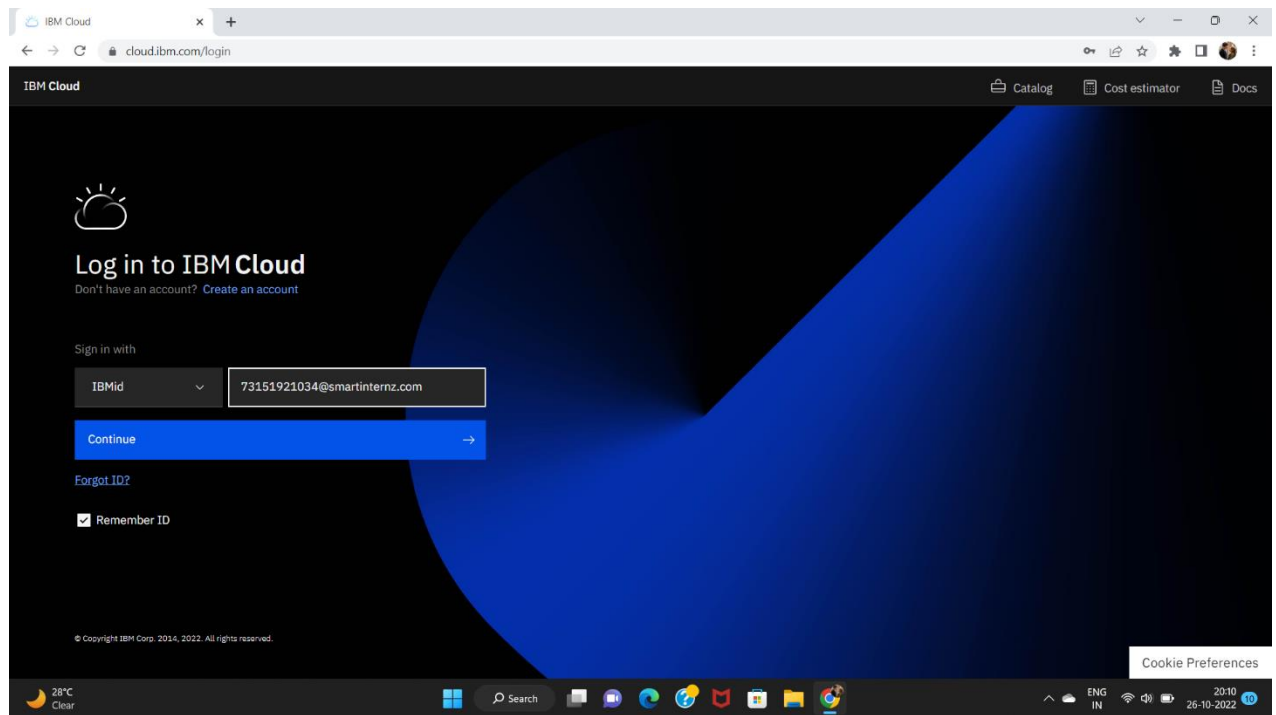

- Confidential computing protects sensitive data by performing computation in a hardware-based, trusted execution environment (TEE). You gain a higher level of privacy assurance with complete authority over your data at rest, in transit and in use.

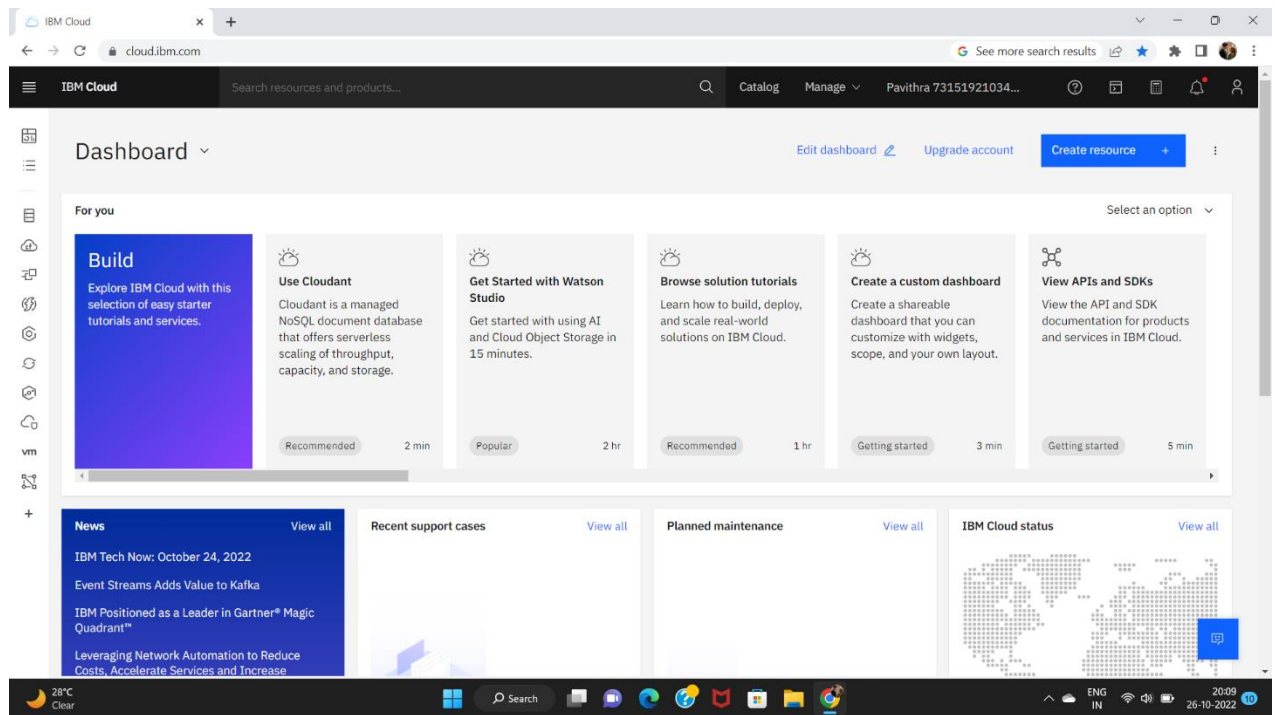

AND SO ON.....

ACCESSING CLOUD SERVICES:

The screenshot shows a Google search for 'cloud ibm'. The search results page displays the IBM Cloud website as the top result. The IBM Cloud website snippet includes the URL 'https://cloud.ibm.com', the text 'Start building immediately using 190+ unique services.', and a link to 'Create an account'. Below the main result, there are sections for 'India' (Free tier - Watson Text to Speech - IBM Watson Studio - ...), 'Catalog' (Db2 - Watson Studio - Cloud Object Storage - Analytics Engine), and 'Docs' (Find documentation, API & SDK references, tutorials, FAQs, ...). A 'People also ask' section is visible at the bottom, with questions like 'What is IBM Cloud used for?' and 'What is the IBM Cloud called?'. On the right side of the search results, there is a card for 'IBM cloud computing' with a description: 'IBM cloud computing is a set of cloud computing services for business offered by the information technology company IBM. Wikipedia'. The card also lists 'Platform: Cross-platform software', 'Initial release date: 7 April 2011', and 'Developer: IBM'. The bottom of the screenshot shows a Windows taskbar with various application icons and a system tray displaying the date and time as 26-10-2022 10:10.

Created IBM Cloud Service.
